

# Walk Between Argan Forest, Ocean & Waterfalls

We walk through an area of euphorbia and Argan trees before we reach the ocean and enjoy ourselves hiking a long untouched beach until we turn towards the beautiful Sidi m'Barek waterfalls.

We then enter the terrace fields where locals grow crops throughout the whole year.

We then walk uphill in the canyon up to the village of Sidi Ahmed Essayeh. There we are welcomed by a Moroccan family for a taste of tagine simmered in a solar cooker.

This fairly sporty and lengthy hike allows you to meet beautiful people and admire sumptuous, diverse landscapes... Enjoy a nice encounter with a French speaking Berber family.

## Full Day Walk

Departs : 9a.m Essaouira  
Length : 12 Km along paths  
and beach
