

Cape Sim & Sidi Kaouki Hike

This diverse hike leads us to Cap Sim with a stunning ocean view where we discover the beautiful bay and village of Sidi Kaouki and also traverse the Juniper Forest. During this hike we discover beautiful vistas of sea and wild dunes.

After a short 30-minute drive south, we find ourselves in the middle of the peninsula dunes. We head towards the ocean taking small paths between white broom and juniper trees to the beach passing the lighthouse of Cap Sim.

We pass Taguenza, a small fishing village on the beach, on our way to Sidi Kaouki where we enjoy our traditional lunch.

After refreshing ourselves, we hike up the hills on winding paths through scenic terrain with Argan and Carob trees.

HIGHLIGHT!

A variety of landscapes including Cap Sim, dunes and juniper forest
